### **3 Licensing and Service**

#### **3.1 Get Product and After-Sales Service**

Once you purchase the product, you will get:

- Free email technical support for one year
- Free updates and upgrades for one year
- The license key of JComponentPack product
- The account and password to download the full version
- Programmer guide and JavaDoc to learn the JComponentPack
- More than 40 examples with source code

A Binary License or Source Code License is required for developers using our products. The initial purchase of Binary License or Source Code License includes one year maintenance for free. If you need further support or upgrades after the free period, you need to purchase a maintenance contract called Annual Maintenance Renewal.

#### **3.2 Binary License**

The Binary License allows you distribute the JComponentPack product with your applications that developed by you or your organization, allows unlimited royalty-free distribution of runtime.

#### **3.3 Source Code License**

The Source Code License allows you modify and distribute the JComponentPack product with your applications that developed by you or your organization, allows unlimited royalty-free distribution of runtime, the Source Code License already includes one Binary License for original or modified versions.

#### **3.4 Annual Maintenance Renewal**

The Annual Maintenance Renewal includes both technical support and product updates or upgrades for one year, allows you continue receiving technical support, product updates or upgrades.
